Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond,

including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. *Abstract:* In order to effectively implement and enforce final changes to 40 CFR Part 257--Subpart B on a State level, owners/operators of construction and demolition waste landfills that receive CESQG hazardous wastes will have to comply with the final reporting and recordkeeping requirements. The OMB control number for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. This continuing ICR documents the recordkeeping and reporting burdens associated with the location and ground-water monitoring provisions contained in 40 CFR Part 257--Subpart B.
